GATHERING, USE AND DISCLOSURE OF NON-PERSONALLY-IDENTIFYING INFORMATION (hereafter known as “NPII”)

Users of the Website Generally

NPII is information that, without the aid of additional information, cannot be directly associated with a specific person. “Personally-Identifying Information,” (hereafter known as “PII”) by contrast, is information such as a name or email address that, without more, can be directly associated with a specific person. Like most website operators, Company gathers from users of the Website NPII of the sort that Web browsers, depending on their settings, may make available. That information includes the user’s Internet Protocol (IP) address, operating system, browser type and the locations of the websites the user views right before arriving at, while navigating and immediately after leaving the Website. Although such information is not PII, it may be possible for Company to determine from an IP address a user’s Internet service provider and the geographic location of the visitor’s point of connectivity as well as other statistical usage data. Company

analyzes NPII gathered from users of the Website to help Company better understand how the Website is being used. By identifying patterns and trends in usage, Company is able to better design the Website to improve users' experiences, both in terms of content and ease of use.

Web Cookies

A "Web Cookie" is a string of information which assigns you a unique identification that a website stores on a user's computer, and that the user's browser provides to the website each time the user submits a query to the website. Wix's use and collection of NPII can be found here: <https://www.wix.com/about/privacy>. COMPANY USERS WHO DO NOT WISH TO HAVE WEB COOKIES PLACED ON THEIR COMPUTERS SHOULD SET THEIR BROWSERS TO REFUSE WEB COOKIES BEFORE ACCESSING THE WEBSITE, WITH THE UNDERSTANDING THAT CERTAIN FEATURES OF THE WEBSITE MAY NOT FUNCTION PROPERLY WITHOUT THE AID OF WEB COOKIES. WEBSITE USERS WHO REFUSE WEB COOKIES ASSUME ALL RESPONSIBILITY FOR ANY RESULTING LOSS OF FUNCTIONALITY.

Web Beacons

A "Web Beacon" is an object that is embedded in a web page or email that is usually invisible to the user and allows website operators to check whether a user has viewed a particular web page. For more information about Company's website host (Wix), refer to Section 9 in their privacy policy: <https://www.wix.com/about/privacy>. You may not decline Web Beacons. However, they can be rendered ineffective by declining all Web Cookies or modifying your browser setting to notify you each time a Web Cookie is tendered, permitting you to accept or decline Web Cookies on an individual basis.

Analytics

We use Google Analytics to analyze and track data, determine the popularity of certain content and better understand online activity. If you do not want any information to be collected and used by Google Analytics, you can install an opt-out in your web browser (<https://tools.google.com/dlpage/gaoptout/>) and/or opt out from Google Analytics for Display Advertising or the Google Display Network by using Google's Ads Settings (www.google.com/settings/ads). For more information on Google Analytics, please refer to: <https://www.google.com/analytics/terms/us.html>

Aggregated and NPII

Our company is hosted on the Wix.com platform. Wix.com provides us with the online platform that allows us to provide information about our services and programs to you. Your NPII data may be stored through Wix.com's data storage, databases and the general Wix.com applications. They store your data on secure servers behind a firewall. For more information, please refer to: <https://www.wix.com/about/privacy>.
